

Instruction Manual of *ExamClient*

Click the designated link to download, decompress the installation, and run.

1. Choose your language

2. System checking

Camera checking on the left, microphone, earphone or speaker checking in the middle, and internet connection checking on the right.

Microphone and earphone or speaker checking: Click "Start recording" (simply say a few words), click "End recording" to play the audio and check whether the recording is normal.

If the checking fails, exit the ExamClient, repair it and enter to check again until it passes and "Next" appears. Click "Next" to continue.

3. Login

Enter your login account and password, and confirm your personal information and test I subject information.

4. Face recognition

Face at the identification box and click "Start identification".

After passing identification, "Verification succeeded" will be displayed, and then click "Next".

If you can't pass, please click on the lower left corner of the "call", request manual verification

人脸识别

本考试使用**人脸识别登录**，请正面对准摄像头，并点击【开始识别】

5. Mobile phone/tablet entering online examination room

Enter the *Proctor Assistant* with your mobile phone/tablet, enter your login account and password, and select the subject to join the online examination room.

If problem occurs, you can scan the QR code on the computer screen via the Browser installed in your phone/tablet (for example, Firefox Browser or Iphone camera, for Iphone camera please scan and then allow to jump to the Browser), and allow to access the camera and microphone before joining the online examination room.

After the mobile phone/tablet enters the online examination room, the computer terminal will show that the scan is successful and click "Next".

6. Test discipline and notices and identity and environment checking
 Read and click to confirm the examination discipline and notices, and wait for the identity and environment checking.
 Finish and wait for the test to begin.

7. Test begin
 After completing the above matters, wait until the test time, the page will automatically jump.
 On the testing page, the left is the question structure bar, the right is the question page
 Objective questions are answered by clicking the mouse.

Reading Comprehension

Read the following four texts. Answer the questions below each text by choosing A, B, C or D.

Text 1

Financial regulations in Britain have imposed a rather unsuitable rule on the bosses of big banks. Starting next year, any guaranteed bonus of top executives could be delayed 10 years if their banks are under investigation for wrongdoing. The main purpose of this "clawback" rule is to hold bankers accountable for harmful risk-taking and to reduce public trust in financial institutions. Yet officials also hope for a much larger benefit: more long-term decision-making not only by banks but also by all corporations, to build a stronger economy for future generations.

"Short-termism" in the desire for quick profits, has worsened in publicly traded companies, says the Bank of England's top economist, Andrew Haldane. He quotes a quote of classical economist Alfred Marshall, in describing the financial impotence of acting like "Cassino who pick the stones out of their pocket to eat them at once" rather than pulling them aside to be eaten later.

The average time for holding a stock in both the United States and Britain, he notes, has dropped from seven years to seven months in recent decades. Transient investors, who demand high quarterly profits from companies, can hinder a firm's efforts to invest in long-term research or to build up customer loyalty. This has been dubbed "quarterly capitalism".

In addition, new digital technologies have allowed more rapid trading of equities, quicker use of information, and thus restless attention spans in financial markets. "There seems to be a predominance of short-term thinking at the expense of long-term investing," said Commissioner Daniel Gallagher of the US Securities and Exchange Commission in speech this week.

In the US, the Sarbanes-Oxley Act of 2002 has pushed more public companies to deliver performance forecasts for senior executives by about a year, slightly helping reduce "short-termism" in its latest survey of CEO pay. The Wall Street Journal finds that "a substantial part" of executive pay is now tied to performance.

Much more could be done to encourage "long-termism," such as changes in the tax code and upping disclosure of stock acquisitions. In France, shareholders who hold onto a company investment for at least two years can sometimes earn more voting rights in a company.

While companies, the right compensation design can provide incentives for executives to think beyond their part-time of the company and on behalf of all stakeholders. Britain's new rule is a reminder to bankers that society has an interest in their performance, not just for the short term but for the long term.

1. According to Paragraph 1, one reason in imposing the new rule is that _____.

(A) enhance banker's sense of responsibility
(B) help corporations achieve larger profits
(C) build a new system of financial regulation
(D) guarantee the bonuses of top executives

2. Alfred Marshall is quoted to indicate _____.

(A) the conditions for generating quick profits
(B) governments' impotence in decision-making
(C) the need structure of publicly-traded companies
(D) "short-termism" in economic activities

3. It is argued that the influence of transient investment on public companies can be _____.

(A) indirect
(B) adverse

Fill in the blank questions are answered with keyboard inputting or uploading pictures via *ProctorAssistant* in your phone/tablet. (Notice: The previous answer will be automatically deleted when the answering method is changed.)
