Study in BIT

I. ABOUT BIT

Founded in 1940, Beijing Institute of Technology (BIT) is one of China's national key universities. It was among the first universities selected for Project 211 and Project 985 and was also included in China's Double First-Class Initiative. BIT has made talent development its fundamental mission and scientific and technological innovation a key driver of its development. It has established a multidisciplinary academic structure centred on science and engineering, with complementary strengths in management and the humanities. BIT ranks 101st in the 2026 Academic Ranking of World Universities (ARWU), 152nd in the 2026 - 2027 U.S. News Best Global Universities Rankings, 234th in the 2027 Times Higher Education World University Rankings, and 243rd in the 2027 QS World University Rankings. It also ranked ninth among universities in the Chinese mainland in the 2022 QS Graduate Employability Rankings. BIT successfully completed the Quality Accreditation for Higher Education of International Students in China, becoming the first university in the country to receive an A+ rating.

Established in 2001, Beijing Institute of Technology, Zhuhai (BITZH) is located in the Golden Inner Bay of the Greater Bay Area and the core innovation corridor of Zhuhai National Hi-Tech Industrial Development Zone. It is close to Guangzhou and Shenzhen and offers convenient access to Hong Kong and Macao. BITZH continues to enhance its international student education system and provides a learning environment that integrates academic study, cross-cultural exchange, innovation and practical learning. BIT currently has more than 5,000 international students from 148 countries across its Beijing and Zhuhai campuses, forming an open, diverse and dynamic international academic community.

II. PROGRAM OVERVIEW

BIT has established partnerships more than 400 universities worldwide and warmly welcomes students from partner institutions to study and exchange at BIT.

Exchange student programs generally fall into two categories: **A. Coursework-Based Programs** and **B. Research-or Thesis-Based Programs.** Applicants must select one of the two categories when applying.

A. Coursework-Based Programs

Duration: one semester or one academic year

Students take academic courses in their chosen field of study, delivered in English.

1. Programs (English-taught)

Undergraduate Program	Graduate Program
Aerospace Engineering	Aeronautics and Astronautics Science and Technology
Mechanical Engineering	Mechanical Engineering
Electronics Science and Technology	Information and Communication Engineering
Automation	Electronic Science and Technology
Computer Science and Technology	Control Science and Engineering
Materials Science and Engineering	Computer Science and Technology
International Economics and Trade	Cyberspace Science and Technology
	Chemistry
	Chemical Engineering and Technology
	MBA
	Law

* Transcripts will be issued 3 months after the end of the semester (applies to all majors/courses).

2. Intensive Chinese Language Program

Courses are focused exclusively on Chinese language learning. If this course is selected, applicants cannot take the academic courses listed above at the same time.

B. Research- or Thesis-Based Programs

Students undertaking thesis work, research, or other non-course activities must work under the guidance of a BIT supervisor, secure a supervisor before admission, and submit a Supervisor Recommendation Form signed by the prospective supervisor and stamped by the relevant school. Applicants must specify in advance any required documents (e.g., proof of study period or academic hours) with the supervisor, as the issuance of documents requested after admission cannot be guaranteed.

III. APPLICATION INFORMATION

1. Eligibility

1). Must be enrolled students from partner institutions;
2). Undergraduate students must complete at least two semesters at their home institution, while graduate students are not subject to this requirement;
